DIVERSITY AND INCLUSION HANDBOOK

Diversity and Inclusion

INTRODUCTION

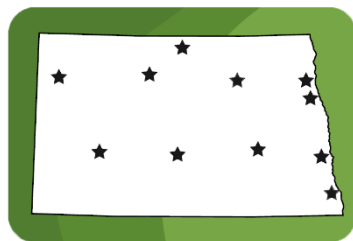

Definitions

Diversity: valuing, respecting and understanding individuals that are different from each other.

Inclusion: the state of being included in a group and having equal rights; requires collaboration, support, and respect

Diversity and inclusion work together to eliminate barriers, discrimination, intolerance, and seek to welcome differences within a group.

The North Dakota Student Association is committed to promoting diversity and inclusion in all practices. The diversity of opinions and perspectives from higher education students across North Dakota creates a strong and well rounded organization.
